

JUAREN A. BALINGIT

MECHANICAL ENGINEER

✉ 506balingit@gmail.com | ☎ +63 948 732 5272

SUMMARY

Licensed Mechanical Engineer with over 1 year and 6 months of combined experience in facility engineering, HVAC systems, preventive maintenance, mechanical equipment inspection, and AutoCAD drafting. Experienced in monitoring building operations, coordinating maintenance activities, supervising contractors, preparing technical reports, and ensuring the safe and efficient operation of mechanical systems. Skilled in troubleshooting, preventive maintenance planning, engineering documentation, and interpreting technical drawings. Strong leadership, communication, and problem-solving skills with a commitment to operational excellence and guest satisfaction.

TECHNICAL SKILLS

Engineering	Project Management	Professional Skills	Software
• HVAC Systems • Mechanical Equipment • Preventive Maintenance • Technical Site Inspection • Engineering Documentation	• Site Coordination • Contractor Coordination • Construction Monitoring • Progress Reporting • Drawing Interpretation	• Leadership • Communication • Problem Solving • Time Management • Organization	• AutoCAD (2D) • Microsoft Word • Microsoft Excel • Microsoft PowerPoint

PROFESSIONAL EXPERIENCE

Mall Engineer, Robinsons Land Corporation Aug 2024 – Dec 2024

- Monitored the daily operation of HVAC systems, pumps, generators, plumbing, and other building mechanical equipment to ensure reliable facility operations.
- Conducted routine inspections of engineering equipment and identified maintenance requirements to prevent operational downtime.
- Coordinated preventive and corrective maintenance activities with contractors and service providers.
- Responded to tenant engineering concerns and coordinated timely repair and maintenance activities.
- Assisted in supervising contractor activities and verified compliance with engineering specifications and safety standards.
- Prepared daily engineering reports, Root Cause Analysis (RCA), maintenance records, and inspection documentation.
- Reviewed engineering drawings and technical specifications to support maintenance and improvement projects.
- Recommended operational improvements to enhance equipment reliability, efficiency, and safety.

CAD Operator, KCC Property Holding Inc. July 2022 – July 2023

- Prepared detailed mechanical and HVAC drawings using AutoCAD.
- Reviewed engineering drawings and technical specifications for accuracy and compliance.
- Revised technical drawings based on engineering requirements and project updates.
- Coordinated with engineers and project teams to ensure accurate implementation of design revisions.
- Organized engineering drawings and project documentation for efficient project control.

EDUCATION

Bachelor of Science in Mechanical Engineering 2019 – 2022

- Mindanao Polytechnic College – General Santos City, Philippines

PRC Licensed:

- Registered Mechanical Engineer (Philippines) – 2024

ADDITIONAL INFORMATION

- Proficient in AutoCAD and Microsoft Office
- Experienced in HVAC systems and mechanical equipment
- Strong knowledge of engineering drawings and technical documentation
- Willing to conduct fieldwork and site inspections
